

Alex Morgan

alex.morgan.dev@example.com | London, UK | linkedin.com/in/alexmorgan-dev | github.com/alexmorgan-dev

Summary

Backend-focused software engineer with two years of professional experience building REST APIs and internal tools. Strongest in Python; comfortable picking up new parts of the stack as needed.

Experience

Software Engineer — Northbridge Fintech, London

July 2024 – Present

- Worked on the company's API.
- Helped fix bugs in the signup flow.
- Wrote some tests for the backend.
- Used Postgres for the database.

Junior Developer — Pixel & Co, London

September 2023 – June 2024

- Built a dashboard using React.
- Did code reviews sometimes.
- Set up Docker for local development.

Projects

- **Personal budgeting app** — Python/FastAPI backend, React frontend, containerised with Docker; tracks spending and generates monthly reports.

Education

BSc Computer Science — University of Hertfordshire (2020 – 2023)

Skills

Python, FastAPI, Flask, PostgreSQL, Git, Docker, React (basic), pytest, REST APIs
